Do not fit to page. To make sure your computer has printed this guide to the correct size, please check the accuracy against the ruler.

10 cm

Place the child's heel on the chart as indicated and measure to the end of the longest toe. (If the toe is between numbers, this indicates a half size).

15 cm

Find the width of your child's foot by taking note of the shoe size. Whatever the shoe size is - find this number on the foot width scale. The width will be determined by which grey area the foot sits in.

Repeat for both feet. If the two sizes are different, use the bigger size when buying your shoes.
