LEATHER CARE

Dust regularly with a soft dry cloth. Use a dampened cloth to wipe clean. Leather upholstery is not suitable for use in conservatories or areas of intense light.

FABRICS AND LEATHERS

All our fabrics and leathers are tested for durability and colour performance.

PILE FABRICS

Needs special care and attention. Fibre crushing and surface fuzzing are natural characteristics that occur with use. Light brushing with a soft brush is recommended. (Refers to Sumptuous Velour, House Chenille and Plush Velvet.)

NATURAL GRAIN LEATHER

These leathers have a very light finish maintaining the natural beauty of the grain. Shade may vary with the natural grain and it is usual to see this variation from panel to panel and between individual pieces of furniture. All natural markings will be visible. Scuff marks will be unavoidable with everyday use but will age over time and add to the individual character of the leather.

EMBOSSED GRAIN LEATHER

These leathers have a highly durable finish with an embossed grain. The colour coated surface gives a uniform colour and grain pattern. Some natural markings may still be visible.

Sofa Ranges:

Alexis sofa from £650 See page 958 for full dimensions, fabric and feet information.

Bewley sofa from £775

Available in retail only. See online for full dimensions, fabric and feet information.
